

Shot Volume and Save Percentage - April 15, 2014

🕒 April 15, 2014 👤 Mike 📁 Shot Volumes 💬 0 comments

Welcome to Shot Volume and Save Percentage - our weekly look at shots and saves in the NHL at all strengths (EV, PK, and PP). Make yourself familiar with the acronyms below and then we'll jump into the data. We include three other seasons of data for reference.

YEAR - season in which data was observed

SV% - save percentage for the league

EVS% - save percentage at even-strength for the league

PKSV% - save percentage while on the penalty kill for the league

PPSV% - save percentage while on the power play for the league

EVF - the fraction of shots against that occur at even-strength

PKF - the fraction of shots against that occur on the penalty kill

PPF - the fraction of shots against that occur on the power play
